

OPaL Receives ISO Energy Management System (EnMS) Certificate

OPaL has received multi-site EnMS certificate for ISO 50001: 2018 from M/s Bureau Veritas Certification Holding SAS-UK (BVQI) for OPaL Manufacturing & Marketing processes. It is yet another achievement as a result of hard work and constant efforts by OPaLians. Establishing a robust system for energy management in such a big Petrochemical complex is a challenge in itself. But determination and dedication of Team OPaL has made it possible even during trying pandemic time.

On 31st December 2020, the Energy Management System (EnMS) certificate was handed over to the OPaL senior management by the officials of M/s Bureau Veritas during the closing ceremony of 2nd National Energy Conservation Week (NECW) 2020. M/s BVQI team attended NECW closing ceremony and was impressed by the spirit of Team OPaL for energy conservation. They praised the unflinching support of management and the enthusiasm of OPaLians.

Shri Manoj Srivastava, President-OPaL, congratulated all the OPaL employees for receiving the prestigious certification. Later he spoke about how implementation of policy can benefit OPaL. He praised OPaL management's efforts in achieving the certification

Shri Saumya Chakrabarti, COO-OPaL, Shri Lalitesh Kumar, Head-CTS, shared their experiences on the processes to achieving this prestigious certification despite extremely challenging pandemic time. The philosophy of energy management has been followed by all the OPaLians in letter and spirit since the Energy Management policy was official adopted by OPaL in January 2020.
