Shri Sanjay Bharti, except to the extent of Directors' Remunerations, does not have any pecuniary relationship, whether directly or indirectly, with the Company or with any managerial personnel or any other director of the Company.

III. OTHER INFORMATION:

1. Reasons of loss or inadequate profits:

Financial Year 2022-23:

Financial Year 2022-23 began with soaring crude oil prices, recessionary fear, and mounting inflationary pressure amplified by the surge in global food prices, sparking macro-economic growth concerns globally.

During this year, there was a decrease in production due to Major Turn Around activity, restricted gaseous feed, and adverse market conditions. Accordingly, sales volume also decreased. The Company was able to achieve sales of Rs. 14,593.05 crore (FY 2021-22 Rs. 16,047.51 Crore). During this year, the average sale rate increased by approximately 5%. However, the average Feed prices increased by 18%, which resulted in lower gross margins. Further, due to higher depreciation and finance cost charged to the statement of Profit and Loss, the Company has reported a loss before tax of Rs. 3,874.00 crore.

Financial Year 2023-24:

Financial Year 2023-24 has been another bad year for petrochemicals due to high volatility in feedstock prices and depressed margins.

During this year, production was revamped, and capacity utilization (saleable products) achieved 92%. Sales volume also increased by 12%, but on account of a 12% decrease in average sale rate, sales in value terms decreased by 2% and stood at Rs. 14,307.32 crore (FY 2022-23 Rs. 14,593.05 Crore). The average Feed prices were also on a decreasing trend, but not in proportion to sales, which resulted in gross loss of margins. Due to above mentioned loss of margins, together with high depreciation and finance costs, the Company has reported loss before tax of Rs. 4,836.78 crore.

Financial Year 2024-25:

Further, Financial Year 2024-25 was similar year like Financial Year 2023-24 for petrochemicals due to volatility in feedstock prices and Product prices.

During this year, there was a marginal increase in production and capacity utilization (saleable products) achieved 93% as against 92% of last year. There was a marginal increase in sales volume during -Financial Year 2024-25 as compared with last year. The average feed price has increased by 6%, whereas the average realization of products increased by only 3% only resulted in gross loss of margins. The above-mentioned loss of margins, together with depreciation and finance costs, the Company has reported loss before tax of Rs. 4,323.15 crore.

2. Steps taken or proposed to be taken for improvement:

During the Financial Year 2024-25, Oil and Natural Gas Corporation Limited (ONGC) (Holding company, earlier JV partner) has implemented Capital restructuring of OPaL and infused Equity Capital Rs. 1,83,652.81 million in the following way: -

- I. Conversion of Share Warrants issued by the Company and subscribed by ONGC into equity shares upon payment of the final call money.
- II. Buy-back of Compulsory Convertible Debentures (CCDs) of Rs. 77,780 million by ONGC and conversion of the same into Equity.
- III. Additional Investment of Rs. 1,05,010 million by ONGC in Equity Shares of the Company.

Upon implementation of the above, the Company became a Subsidiary of ONGC with effect from 23rd August, 2024. The Company used these funds for the payment of high-cost debts.

3. Expected increase in productivity and profits in measurable terms

- I. Exit from the Special Economic Zone (SEZ) area:

OPaL Dahej Petrochemical unit has been exited from the SEZ area w.e.f. March 08, 2025, which will improve the net realization of the Company from domestic area sales.

- II. Reduction in Gas cost and expected reduction in feed price

The allocation upto 3.2 MMSCMD gas by the Government of India, for gaseous feed, will ensure gaseous feed availability to run the Plant at full capacity, and related commercial arrangements will help sourcing of such feed stock at a lower cost. Further, the company is also exploring options for long-term sourcing of feed stock, which may help the company to improve margins.

- III. Optimization of Product Mix

The Company is constantly reviewing the optimization of the Product mix to improve net margins.
